

Dovetail Games Euro Fishing

'The most realistic fishing game ever. Amazing'

Angling Times

This is the closest you can get to real fishing from the comfort of your own couch. Welcome to the Great Indoors!

- **Total Cast Control** — For the first time in a fishing game, experience the feeling of casting with real fishing rods from your own PC
- **Intelligent Fish AI** — The battle of wits between fish and angler come to life with intelligent AI
- **Competition and Tournaments** — Challenge your friends in a multiplayer tournament and compare catches in real time, or compete against AI in our hosted tournaments
- **Stunning Locations**— Five unique European venues await every fisherman, including real venues such as the famous St John's Pool at Linear Fisheries and Digger Lakes, all recreated in magnificent detail
- **Dynamic Weather and Time of Day** — Set weather conditions to reflect real world settings or create your own preferences to affect how fish behave
- **Tackle Box** — Select the right angling equipment for the best chance of landing the big catch; choose from a wide range of rods, reeds, rigs and bait in thousands of possible combinations
- **Watercraft** — Read the water and its features, predict what the fish are going to be doing and cast from the bank or a peg for the best chance of a catch
- **Cutting Edge Technology** — Using the latest Unreal Engine 4 graphics technology, Dovetail Games Euro Fishing looks and feels as close to the real thing
- **Created by Experts** — Working with carp angling experts, including Korda and Simon Scott, Dovetail Games Euro Fishing replicates the experience of real fishing

Why stock this game?

- No other fishing simulation of note is available on the current market
- Long-term planned product franchise
