For Immediate Release

New 2011 Holiday bundles available from CH Products

VISTA, California (August 05, 2011) – CH Products, LLC (www.chproducts.com)

Available exclusively through the 2011 Holiday Season, CH Products will begin offering the newly released **Discover United States of America** and **Discover Europe** with their popular flight sim peripherals, at no additional charge. Both Microsoft™ Flight Simulator Add-on* titles are published by award winning software developer, [First Class Simulations](http://www.firstclasssimulations.com) in the United Kingdom.

CH Products is thrilled to offer these two popular software titles to complement their professional flight controls, including yokes, pedals and throttles. With two distinct yoke models to choose from, each brings unsurpassed realism, accuracy and control to your hobby. The **Flight Sim Yoke** features 144 programmable functions, 5 axis and 20 buttons and continues to be the product of choice for all your flight simulation needs. The **Eclipse Yoke** offers all the functions and programmability as its predecessor, but includes additional features such as fully programmable fingertip paddles and trim / scroll wheels, and is a great starter kit for any flight enthusiast. Add in the **Throttle Quadrant**, with its multi-configurable colored knobs and programmability and realistic **Pro Pedals**, and be prepared to dominate the virtual skies.

Experience the breathtaking beauty of the United States of America in a highly detailed and realistic simulation of the Beechcraft 18, the iconic aircraft first flown in 1955 and still prized by collectors today for its performance and elegance. **Discover USA** takes you on a tour of this country of scenic surprises, leaving no stone unturned as you explore all that the USA has to offer. Fly over the Rockies and the Grand Canyon, visit New York, Washington D.C and Los Angeles and cross thousands of miles of the USA. From the major cities, to small wilderness airfields, snowcapped peaks and arid deserts, bush pilots and city explorers alike will discover the airborne adventure of a lifetime!

In **Discover Europe**, take an Alpine adventure as you visit Paris, Rome, Madrid, Venice, Prague, Warsaw, Vienna and a whole host of cities that reflect the multicultural tapestry of the continent. With a range of flights for both novice and seasoned aviators there is something for everyone, from challenging approaches to a leisurely Mediterranean descent into the playground resorts of the rich and famous. Offering both maneuverability and benign handling characteristics, the Pacer is a stable platform that is particularly well suited to the role of a sightseeing aircraft.

Your adventures are supported by lavish extras including a tourists guide to all the destinations visited, detailed pilots notes, a comprehensive briefing and a tutorial for the included Beechcraft and Piper aircrafts.

CH Products offers a complete range of USB PC controllers for both general aviation and combat simulation and well as high fidelity controllers to meet military training needs. CH Products' Industrial offerings are customizable while its commercial line of yokes, rudder pedals, Throttles and joysticks are recognized as the most realistic and reliable desktop controllers available. Each CH Products joystick and controller is manufactured in our 80,000 sq. foot vertically integrated facility in Southern California.
