

## FOR IMMEDIATE RELEASE:

### Tracks: The Train Set Game – Launching 14 November on Xbox One and PC

*Banbury, Oxfordshire – 6<sup>th</sup> November 2019*

Tracks, the uniquely wonderful toy train set builder, will launch on Xbox One, Windows 10 and Steam on 14 November.

With just over a week to go, we've released a [brand new trailer](#), put together almost entirely using footage of player-created worlds. We've been astonished by the amount of creativity on display within the Tracks community and cannot wait to see what Xbox One players come up with.

14 November will also mark the end of a two year Steam Early Access period for Tracks, in which our players have been crucial in guiding development and have also awarded the game a 91% positive review standing on Steam as of time of writing. As well as being available on [Steam](#), Tracks: The Train Set Game is also available on further great digital stores.

*Tracks is a beautiful toy train set builder which gives you the tools to play without limits.*

*Jump into an expansive sandbox and lay down track pieces, create bridges and build towns with Tracks' easy to get to grips with gameplay.*

*Once you're ready, hop into the driver's seat and ride your little train in first-person view – controlling the speed and direction, as you ride the rails.*
